

The Catalina 22 National Sailing Association is dedicated to:

CREATING —

greater awareness of the many aspects of boat ownership.

DEVELOPING —

and maintaining a productive relationship with Catalina Yachts.

PROMOTING —

the Catalina 22 in the greater sailing community.

ENCOURAGING —

familiarity with boat handling and maintenance to novice boat owners.

ACTIVITIES —

Local, Regional, and National cruises, races, and socials.

GOALS —

to make the Catalina 22 the most popular boat in the world.

National Sailing Association

FAMILY ORIENTED FOR

- ◆ **Cruising**
- ◆ **Family Fellowship**
- ◆ **Racing**
- ◆ **Sharing**
- ◆ **Socializing**

We Are The Catalina 22 National Sailing Association,

an organization comprised of Catalina 22 owners. The association was founded in 1971 and was designed as a family style class racing and cruising association to allow C-22 sailors the opportunity to share and augment their experiences in sailing. Since that time, the association has grown to an active membership with 10 regions and 78 active fleets.

We Are A Family Oriented Group

that believes everyone enjoys their boat more fully when their enjoyment is shared with others.

Our Purpose Is To Inform Members

of nationally sanctioned events and promote activities among the owners of Catalina 22s.

Here Is How We Function:

Nationally: The national association is led by elected officers as a governing board to guide the 10 regions.

Regionally: Each region has an elected Regional Commodore to help the fleets in that region build membership, host regattas and generally promote activities appropriate to their locale.

Locally: Each fleet elects its own officers to organize whatever type of activities they want to entertain. The fleet has its own personality and is encouraged to develop according to the interests of its membership.

Your Benefits As A National

Member Are:

A subscription to MainBrace, a bi-monthly publication full of news on the local, regional and national level.

A network of technical information including a Technical Manual.

Cruises on the national, regional, and local fleet level.

One-Design racing on the national, regional and local level.

How You Can Organize:

The national officers primary duties are to help the local fleets. They offer assistance in organizing a local fleet or locating an existing fleet. The association has material to help fleets in their activities and hosting regattas.

Why Should I Be A National Member?

- To build relationships with other sailors with like interests.
- To communicate through the Main Brace, our National quarterly publication.
- To retain the value of C22s.
- To share in the technical knowledge of the many members throughout the nation.
